Looking for personalized academic support? UCAM is here to help!

Our fee-for-service program offers weekly 1-on-1 coaching tailored to students navigating academic challenges, executive function difficulties, neurodivergence, learning differences, or mental health concerns. Students can choose between one or two hours of coaching each week.

Along with personalized support, UCAM provides access to a professional writing tutor, fun social events, and daily group study sessions.

We're now accepting applications for Spring Quarter—spaces are limited!
