

Dear Alumni and Friends of the College of Pharmacy -

There are many individual stories that I could share about how your past financial support makes a real difference in the lives and overall well-being of our students. While their stories are unique, they all center on hope, inspiration, and gratitude.

Indeed we are blessed to receive support from generous alumni and friends like you, who step up to support our college goals, ensuring our ability to provide the best education and resources for our outstanding students, faculty, and staff.

I ask you today to help create even more impact by supporting our College of Pharmacy Carolina Fund. Your gift to the College of Pharmacy Carolina Fund (donate.sc.edu/cop) will be used where it can best have a direct and positive effect on our students' experiences in and beyond the classroom.

In the past, funds from our Carolina Fund have provided scholarship support to students, helping to alleviate some financial burden. It has funded professional development opportunities for students enabling them to travel to conferences and professional meetings. Last year, our Carolina Fund supported the addition of a filtered water station in the college now enjoyed by students, faculty, and staff. We are so grateful.

While our need for donor support has never been stronger, our commitment to providing an excellent pharmacy education for all students, remains the same. For all you have done for the College of Pharmacy and for all that you will do in the future, I humbly thank you.

For Carolina,

Stephen J. Cutler, Ph.D.
Dean, College of Pharmacy
