

The Tft Tips Trio

DEEP HOPE

1

As students return from break and/or launch into new courses, (re)introduce Deep Hope using a variety of activities over the course of a few lessons:

- Explore scriptures related to the key concepts of Deep Hope
- Design a hands-on activity for students to investigate part of Deep Hope
- Examine pieces of art related that relate to Deep Hope
- Do a word study or unpack the Deep Hope
- Read a story, poem, article, etc. that relates to the Deep Hope

2

Invite students to create a visual for Deep Hope, either collectively or individually. Include as artifacts on the Storyboard.

3

Use Howard Gardner's **Theory of Multiple Intelligences** to brainstorm and design rhythms and practices. For example, How could students activate musical intelligence to engage Deep Hope? What would it look like to incorporate kinesthetic engagement with Deep Hope?

Teaching *for*
TRANSFORMATION
