

SOU's Sign Language Club Meets Ceramics!

SOU's Sign Language Club, headed by Rocky Amezquita, President, and hosted by Associate Professor of Sculpture and Ceramics, Michael Parker, spent our weekly meeting on an art project we hope to make into a fundraiser. We had an enthusiastic turnout of 20+ members to create I-LOVE-YOU or ILY hand sculptures.

Thank you to Professor Parker for warmly welcoming us into the studio and teaching us how to make these awesome 3-D clay ILY hands!

Sign Language Club meets every Wednesday evening, 7:30-8:30. We focus on American Sign Language and also delve into other countries' sign languages. Of course, we center our meetings around Deaf Culture, so communication takes place in ASL. Even if you don't sign, you're welcome to join us if you'd like to begin learning! Find us on HawkNest (https://hawknest.sou.edu/SLC/club_signup)!

Look for these ILY Hands to come out in the Spring as a fundraiser for the Sign Language Club! We will have a variety of clay ILY Hands, and you're sure to find one that you love.
