Introduction

Governor Murphy and the New Jersey Legislature enacted P.L.2023, c.78 (C.55:14K-104 et al.) (“the Act”) on June 30, 2023, codifying the New Jersey Housing and Mortgage Finance Agency’s (NJHMFA or “the Agency”) First-Time Homebuyer Down Payment Assistance (DPA) Program and authorizing the creation of a First-Generation (“First-Gen”) assistance program to be paired with the DPA Program. In addition to enshrining NJHMFA’s existing and highly successful DPA Program, the Act created the First-Gen supplement authorizing additional assistance for buyers who are the first in their family to own a home. The Governor and Legislature appropriated \$40,000,000 to the DPA program in Fiscal Year 2024 and Fiscal Year 2025.

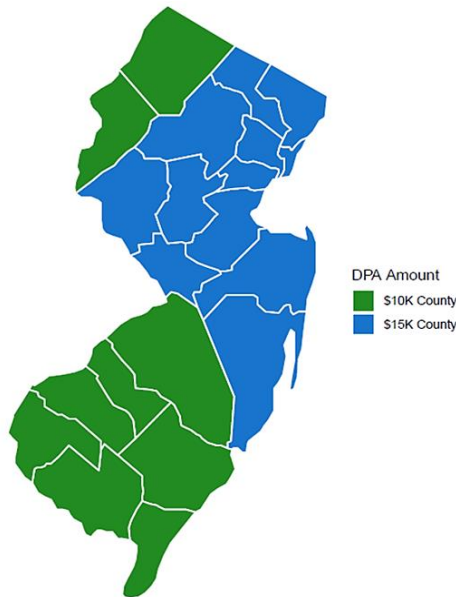

The DPA program provides assistance in the form of a zero-interest forgivable loan in the amount of \$10,000 or \$15,000 (“base DPA”), depending on the county’s average homeownership costs. Pursuant to the Act, First-Gen borrowers may receive an additional \$7,000 in assistance. The Act requires that NJHMFA submit a report to the Governor and the Legislature within 730 days of enactment (June 29, 2025), assessing the efficacy and impact of the DPA and First-Gen programs . This report provides insights pertaining to DPA spending over time, the demographic profile of DPA recipients, the impact of DPA on recipients’ housing costs, and the efficacy of DPA in providing homeownership opportunities for first-time and first-gen homebuyers.

History and Overview

In 2017, the Agency used Federal Hardest Hit Fund (HHF) dollars to relaunch the DPA program for low-to-moderate income first-time homebuyers. From 2017-2022, NJHMFA granted 8,139 DPA awards totaling \$86 million in assistance. During this period, funding sources expanded to include Agency funds and bond proceeds. The Governor’s Office and the New Jersey Legislature recognized the success and critical importance of the DPA program for first-time homebuyers earning low-to-moderate-income and included the DPA Program as a line item in the FY 2022 and FY 2023 State budgets to replace expiring federal funds, allocating \$20,000,000 and \$25,000,000, respectively. In May 2023, the Legislature expanded this successful program by codifying the DPA Program and providing additional assistance to support First-Gen homebuyers. The expanded DPA and First-Gen Assistance program, was signed into law on June 30, 2023 and launched on October 20, 2023.

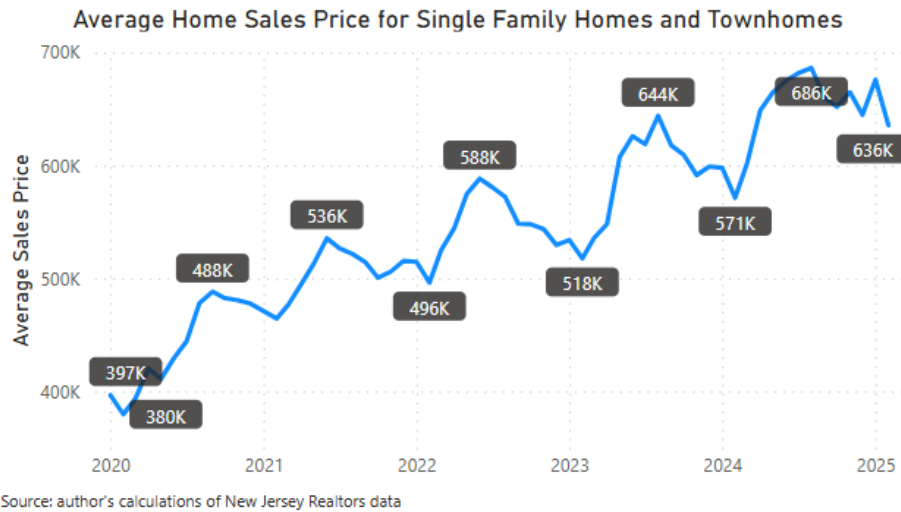

The DPA program is structured such that the location of the home and the first-generation status of the homebuyer(s) determine the precise amount of DPA. Homebuyers can receive forgivable loans of \$10,000, \$15,000, \$17,000, or \$22,000. First-time homebuyers purchasing homes in higher-cost counties can receive \$15,000 in DPA, while first-time homebuyers purchasing in lower-cost counties can receive \$10,000 in DPA.

COUNTY LIST	Amount of Smart Start DPA	First Generation Homebuyer	Total Amount
Bergen, Essex, Hudson, Hunterdon, Mercer, Middlesex, Monmouth, Morris, Ocean, Passaic, Somerset, Union	\$15,000	\$7,000	\$22,000
Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Salem, Sussex, Warren	\$10,000	\$7,000	\$17,000

First-time homebuyers who are also first-generation homebuyers may receive an additional \$7,000 in First-Gen assistance. Therefore, a first-time, first-generation homebuyer in Bergen County can receive \$22,000 in DPA. Whereas, if this same homebuyer was in Atlantic County, they would receive \$17,000 in DPA. The regional differences reflect the differences in the cost of living across counties in New Jersey, maintaining purchasing power parity across the state, while the First-Gen assistance addresses the additional obstacles to homeownership faced by first-generation homeowners.

First-time homebuyers and first-generation homebuyers are facing particular difficulty navigating the current housing market. The average home price in New Jersey has remained above \$600,000 for the last year. Escalating home prices and high interest rates exacerbate already severe housing affordability issues – as of June 12, 2025, the 52-week average undiscounted interest rate for a 30-year fixed-rate mortgage was 6.69%.¹

First-time homebuyers face a significant disadvantage in the housing market as compared to potential buyers who already own a home. Current owners have accrued substantial equity as home prices have risen, giving them ample cash for a down payment. This liquidity reduces the amount current owners have to borrow, helping them avoid some of the challenges of a high-interest rate environment. Given these affordability challenges and unequal playing field, the Agency also engages in interest rate buydowns for households receiving

¹ Freddie Mac, "Primary Mortgage Market Survey," 2025, <https://www.freddiemac.com/pmms>

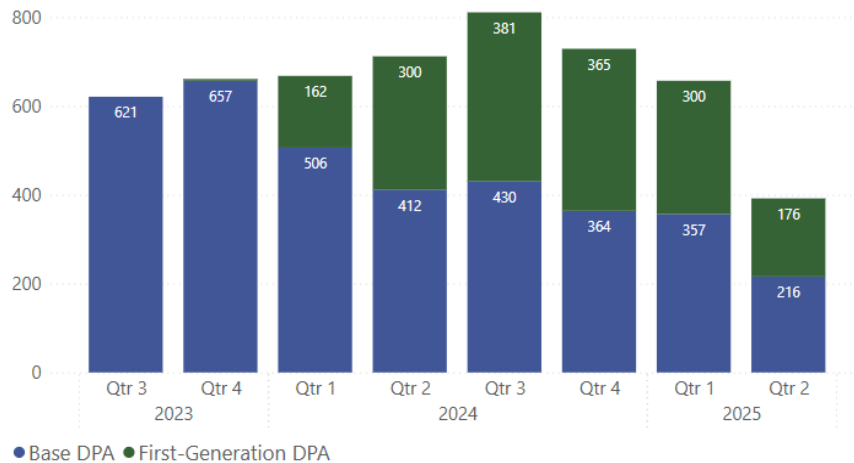

DPA at no extra cost to borrowers (i.e., no discount points). The interest rate buydowns typically range from 25 basis points to 50 basis points. The Agency never charges discount points on mortgage loans. Through the combination of interest rate buydowns and DPA, the Agency ensures that first-time homebuyers earning low-to-moderate-incomes can compete, and win, in an otherwise highly constrained housing market.

Spending and Awards

Between July 1, 2023 and June 1, 2025, the Agency provided 5,251 DPA awards to 7,430 first-time homebuyers. Of these, 1,688 awards (32%) qualified for the additional \$7,000 in First-Gen, which helped 2,338 first-generation homebuyers become homeowners.

Number of DPA Awards by Program

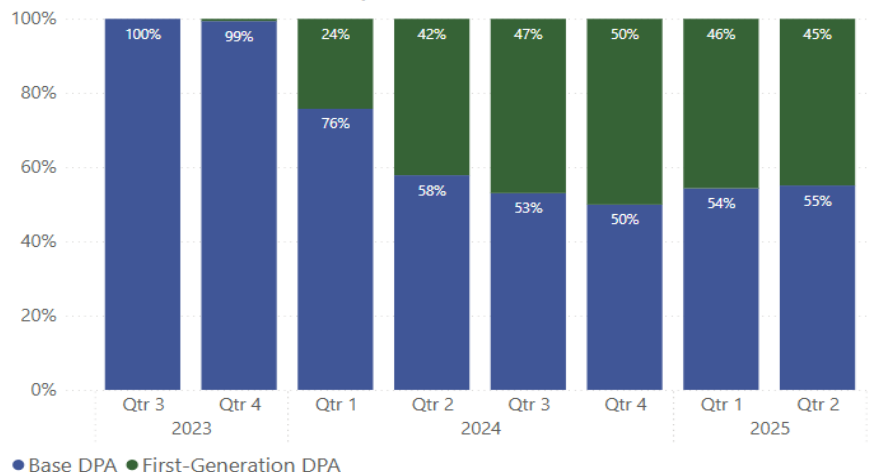

July 1, 2023 to June 1, 2025

The Agency fully integrated the First-Gen component into the DPA program by the first quarter (Q1) of Calendar Year (CY) 2024. By Q2 CY 2024, home purchases by first-generation homebuyers were closing at the rate of a fully-scaled program. First-Gen awards constitute just under half of total DPA awards.

Share of DPA Awards to First-Generation Buyers

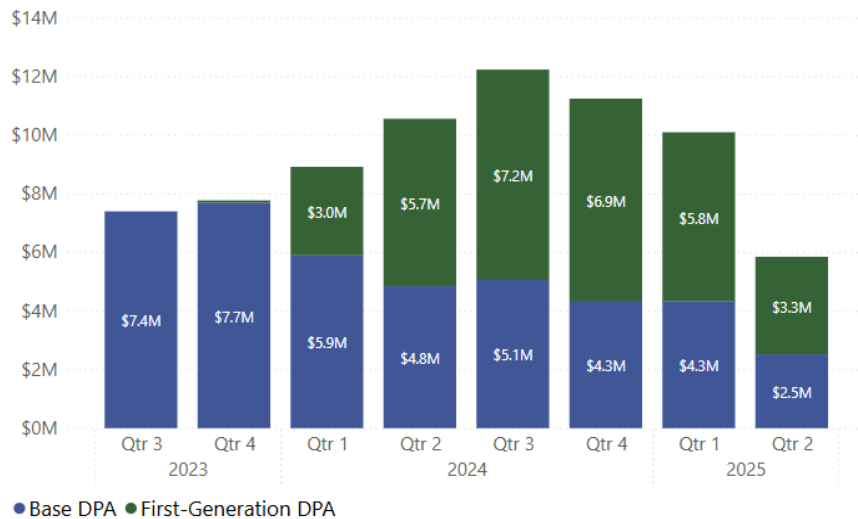

July 1, 2023 to June 1, 2025

First-Gen buyers account for more than half of DPA spending. Between July 1, 2023 and June 1, 2025, NJHMFA awarded \$74,046,000 in DPA. The Agency awarded \$32,011,000 to First-Gen homebuyers and \$42,035,000 went to base DPA recipients, in other words to first-time homebuyers that were not first-generation. This division of funds, however, does not account for the first few months of First-Gen roll-out (i.e., developing guidelines, advertising, working with lenders, closing sales). Since January 1, 2024, the Agency has awarded \$58,883,000 in DPA. Of this, the Agency awarded \$31,938,000 in DPA to First-Gen recipients and \$26,945,000 in DPA to base DPA recipients.

Total Amount of Down Payment Assistance Awarded by Program

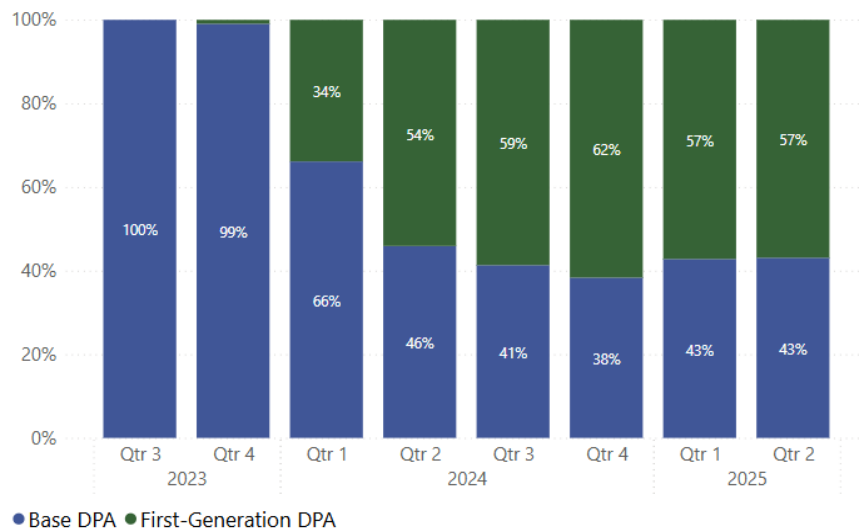

July 1, 2023 to June 1, 2025

In 2024, the Agency met, then exceeded, the statutory goal of providing at least half of DPA funds to first-generation homebuyers. Roughly 60% of program funds have been awarded to first-generation homebuyers over the last 12 months.

Share of Down Payment Assistance Funds to First-Generation Buyers

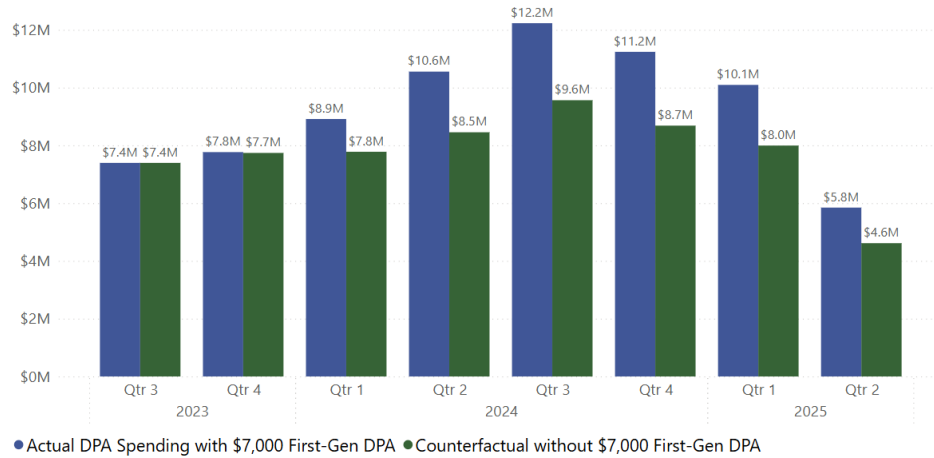

July 1, 2023 to June 1, 2025

The investment in First-Gen assistance has ensured that DPA funds are spent efficiently and productively. Despite the majority of funds now going to first-generation homebuyers, adding First-Gen assistance to the DPA program only increased total program costs by approximately 22%.

Total Down Payment Assistance Spending with and without First-Generation Assistance

July 1, 2023 to June 1, 2025

DPA Awarded by County (July 1, 2023 to June 1, 2025)

	DPA Awarded	DPA + First-Gen Awards	DPA Awards
Atlantic	\$ 5,611,000	163	447
Bergen	\$ 1,096,000	28	60
Burlington	\$ 7,571,000	183	629
Camden	\$ 11,275,000	295	921

Sussex	\$ 1,566,000	38	130
Union	\$ 1,884,000	42	106
Warren	\$ 1,160,000	30	95
Grand Total	\$ 74,046,000	1,688	5,251

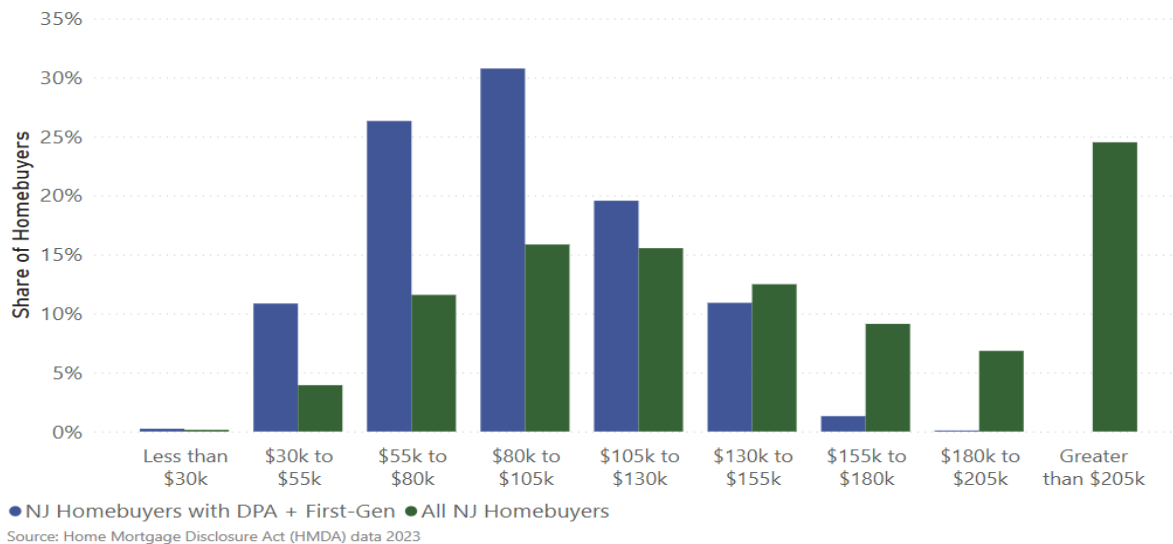

The DPA program has made an impact on first-time, first-generation homebuyers in every county in the State. The additional funds from the First-Gen assistance component have extended the DPA program's reach into higher cost counties. Approximately half of the DPA awards in the following higher-cost counties included First-Gen assistance: Bergen County (47%), Essex County (52%), Hudson County (47%), and Passaic County (46%). Previously, these counties would account for only a small number of DPA awards.

Homebuyer Demographic Information

The DPA program has been incredibly effective at targeted those low-to-moderate-income homebuyers who would otherwise be excluded from the housing and mortgage market. The majority of households that use the DPA program plus First-Gen assistance earn less than \$105,000 annually; over 35% earn less than \$80,000 annually, and more than 10% earn less than \$55,000 annually.

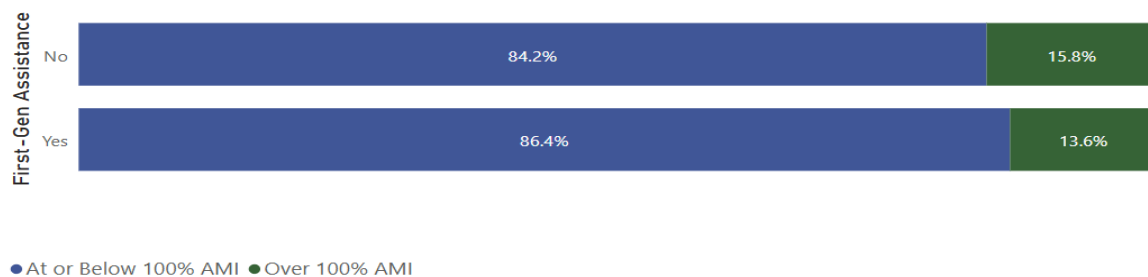

In comparison, among all New Jersey homebuyers with a mortgage, under 15% of households earn less than \$80,000 and nearly 25% earn more than \$205,000. The distribution of income is remarkably similar among those households participating in the DPA program without the additional First-Gen assistance. The median income for households that used the DPA program plus the First-Gen assistance was \$90,000, and the median income for households that used just the base DPA program was \$92,700.

Household Income Distribution of New Jersey Homebuyers with a Mortgage

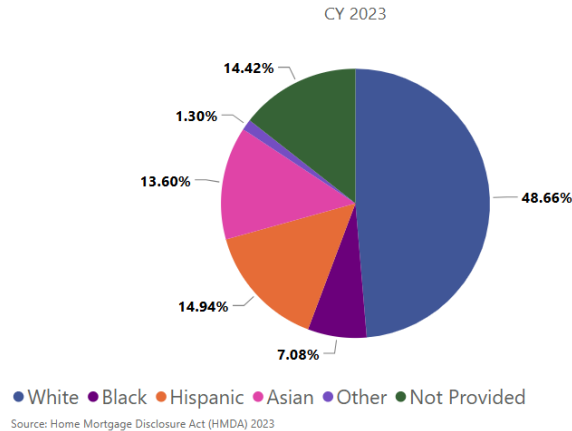

These figures illustrate that the DPA program is addressing an otherwise unmet need by helping low-to-moderate income households, in other words, those households earning 50 percent to 80 percent of median income, become homeowners. A full 86.4% of first-generation households and 84.2% of all DPA-recipient households earn less than the State's median family income.

Share of DPA Recipient Households Earning Less Than Median Family Income

The DPA program and the additional First-Gen assistance have also been highly successful in expanding homeownership access across New Jersey. In New Jersey, approximately 54% of the population identify as White, 13% identify as Black or African American, 10% identify as Asian, and 23% identify as Hispanic or Latino.² The homeownership rate among New Jersey's diverse population varies widely. The homeownership rate among White New Jerseyans is over 75%, while the homeownership rate is 41% and 40% among Black-African American New Jerseyans and Hispanic-Latino New Jerseyans, respectively.³

Race and Ethnicity of All NJ Homebuyers with a Mortgage

Demographic disparities in New Jersey's housing market are not limited to differences in homeownership. The Black-African American community and the Hispanic-Latino community tend to be underrepresented in the mortgage market. In 2023, only 7% of New Jerseyans who purchased a home with a mortgage identified as Black or African American, despite 13% of the population identifying as Black-African American and only 40% being homeowners. In addition, only 15% of homebuyers with a mortgage identified as Hispanic or Latino in 2023, despite 23% of the population identifying as Hispanic or Latino and 40% being homeowners. Asian homebuyers tend to be overrepresented in the purchase mortgage market and White homebuyers tend to be adequately represented when considering that the homeownership rate is more than 75%.

<https://data.census.gov/table/ACSDT1Y2023.B25003B?q=race+by+tenure&g=040XX00US34>

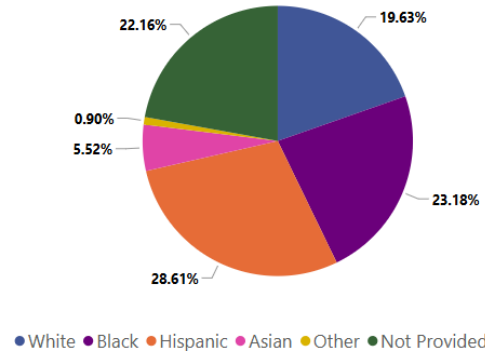

U.S. Census Bureau, "Table B25003I: Tenure (Hispanic or Latino Householder)," American Community Survey, 2023 1-year estimates, <https://data.census.gov/table/ACSDT1Y2023.B25003I?q=race+by+tenure&g=040XX00US34>

Race and Ethnicity of All DPA Recipients

July 1, 2023 to June 1, 2025

Race and Ethnicity of First-Gen DPA Recipients

July 1, 2023 to June 1, 2025

The addition of First-Gen assistance has amplified the efficacy of the DPA program. Of homebuyers who received DPA assistance between July 1, 2023 and June 1, 2025, approximately 16.4% of DPA recipients identified as Black or African American and 19% identified as Hispanic or Latino. Of homebuyers who received DPA assistance plus the additional First-Gen assistance, 23.2% identified as Black or African American and 28.6% identified as Hispanic or Latino. The representation of Black-African American homebuyers and Hispanic-Latino homebuyers in the program's lending portfolio demonstrates that the First-Gen assistance program is successfully promoting homeownership opportunities for historically underrepresented New Jersey homebuyers.

Impact on Housing Costs

The Agency's DPA program has made homeownership more affordable and attainable for more than 14,000 households since the relaunch of the program in 2017. Since the codification of the DPA program and establishment of First-Gen on June 30, 2023, the DPA program has helped 5,251 households purchase their first home. Of these households, 1,688 also benefited from the additional \$7,000 in First-Gen assistance. To measure the benefit of the DPA and First-Gen assistance, the Agency calculated the impact of the assistance on monthly housing costs by adding the DPA and First-Gen assistance amount to the actual approved loan and increasing each interest rate by 25 basis points, which is a conservative estimate of the interest rates without the Agency's interest rate buydowns. This demonstrates what the homebuyer would have had to pay in down payment and mortgage interest to purchase the same home absent the Agency's DPA and First-Gen assistance.

Between July 1, 2023 and June 1, 2025, the average DPA amount (including First-Gen) equaled \$14,101, with the average mortgage loan totalling \$283,536. The average interest rate on a mortgage loan with DPA was 6.82%. The average monthly mortgage and interest payment for a household that received DPA (including First-Gen) during this period was \$1,853. Had these households not received any DPA and, otherwise, been forced to take out a larger mortgage loan at a higher interest rate, the average monthly mortgage and interest payment would be \$1,996. Therefore, 5,251 first-time homeowner households would be paying an additional \$142 per month in mortgage and interest on average, or \$1704 per year, had they not received DPA.

DPA Recipients' Actual Housing Costs *versus* their Hypothetical Housing Costs without DPA

Column1	Average Purchase Mortgage Amount	Average Interest Rate	Average Monthly P&I Payment	Average Total Interest Paid	Average Total Home Cost
Actual Housing Cost with DPA	\$ 283,536	6.82%	\$ 1,854	\$ 383,841	\$ 667,377
Hypothetical Cost without DPA	\$ 297,637	7.07%	\$ 1,996	\$ 420,901	\$ 718,538
Average Savings	\$ 14,101	0.25%	\$ 142	\$ 37,060	\$ 51,161

Over the life of their loan, a homebuyer participating in the DPA program will save an average of \$51,161 on their home purchase. Approximately \$14,000 of this savings is from the initial down payment assistance. The remaining \$37,000 in savings result from interest savings. Homebuyers with DPA save on interest through two mechanisms. First, without the DPA, homebuyers would need a larger mortgage loan to afford the same home. The interest-free, forgivable DPA loan saves money on the additional interest paid on a higher mortgage amount. Second, without the DPA program's interest rate buydowns, homebuyers would be paying an additional quarter of a percent in interest amortized over 30 years.

DPA+First-Gen Recipients' Actual Housing Costs *versus* their Hypothetical Housing

Column1	Average Purchase Mortgage Amount	Average Interest Rate	Average Monthly P&I Payment	Average Total Interest Paid	Average Total Home Cost
Actual Housing Cost with DPA+First-Gen	\$ 293,518	6.81%	\$ 1,916	\$ 396,175	\$ 689,693
Hypothetical Cost without First-Gen	\$ 300,518	6.81%	\$ 1,962	\$ 405,631	\$ 706,149
Average Savings	\$ 7,000	0.00%	\$ 46	\$ 9,456	\$ 16,456

*The calculations in the hypothetical cost row include the base DPA amount and the favorable DPA interest rates. For this reason, the interest rate does not differ in this comparison.

The addition of the First-Gen assistance has significantly increased savings and affordability for first-generation homebuyers. On average, the \$7,000 First-Gen assistance reduced first-generation homebuyers' monthly payment by an average of \$46. Even with the base DPA amount and the below-market interest rate, a first-generation homebuyer would be paying nearly \$50 more per month on their mortgage and interest payment without First-Gen assistance. These savings result from the additional \$7,000 in equity that First-Gen assistance recipients receive from the program and from the interest savings that results from not having to take out a larger mortgage loan. The First-Gen \$7,000 assistance will save the average first-generation homebuyer \$9,456 in interest over the life of their loan, for a total average savings of \$16,456.

**Savings to First-Gen Homebuyers from First-Gen Assistance
(July 1, 2023 to June 1, 2025)**

	Cumulative Amount
Down Payment Assistance	\$ 11,816,000
Interest Savings	\$ 15,961,815
Total FG Homebuyer Savings	\$ 27,777,815

*Savings represent only those resulting from the additional \$7,000 in First-Gen assist

The initial \$11,816,000 investment in the additional \$7,000 First-Gen assistance will generate a cumulative savings of \$15,961,815 in interest over the lives of the mortgages. Therefore, the additional \$7,000 in First-Gen assistance alone will save New Jersey's first-generation homebuyers a cumulative total of \$27,777,815.

**Savings to Homebuyers from the DPA Program
(July 1, 2023 to June 1, 2025)**

	Cumulative Amount
Down Payment Assistance	\$ 74,046,000.00
Interest Savings	\$ 194,599,649.02
Total Homebuyer Savings	\$ 268,645,649.02

In total, since the enactment of P.L.2023, c.78, the DPA program has saved low-to-moderate-income homebuyers more than \$74,000,000 through direct assistance and will save these homebuyers over \$194,500,000 in interest payments over the lives of their mortgage loans. These combined savings sum to a total savings of \$268,645,649, a total benefit far surpassing the cost of the DPA program.

Beyond the immediate savings realized as a result of DPA and First-Gen Assistance, DPA program homebuyers have realized substantial increases in household equity and wealth as a result of the home equity generated through their DPA-supported home purchase.

Conclusion

The Agency continues to create and expand homeownership opportunities for low-to-moderate income homebuyers through the Down Payment Assistance program. First-Gen assistance has served to further the Agency's mission by expanding access to statewide homeownership opportunities. Without this assistance, many working households would not be able to participate in the current housing market and would not have access to the most important source of household wealth for American families. The data illustrates that the DPA and First-Gen assistance will save New Jersey's working households hundreds of millions of dollars in mortgage and interest payments over the next several decades, reducing their housing cost burden and building equity. Those benefiting from the Legislature's investment in DPA and First-Gen assistance are individuals and families who often earn too much to benefit from other direct assistance, but too little to purchase a home in a market saturated with higher-income households. As interest rates remain high and housing prices continue to rise, working families will continue to look to the Agency to make their homeownership aspirations a reality. NJHMFA remains committed to meeting that need and offering the partnership and support necessary to enhance statewide homeownership access.
