## Invitation for Dr. Faculty A Member to apply for the Global Excellent Scientists Fund 2024 in China

### PROJECT POSITIONING

The Global Excellent Scientists Fund 2024 in China aims to attract and encourage overseas talents (including non-Chinese foreign talents) with outstanding achievements **in natural science, engineering technology**, etc. to return to China (come to China) to pursue their careers.

### CANDIDATE QUALIFICATIONS

#### 01

For applicants born **before** 1 January 1984, they must have PhD degree in **Science or Engineering**, etc. And should hold positions equivalent to **associate professor or above** in renowned universities and scientific research institutions; or **senior professional positions** in internationally renowned companies.

#### 02

For applicants born **after** 1 January 1984, they must have PhD degree in **Science or Engineering**, etc. And no less than 36+ consecutive months working experience abroad after completing their PhD. They must currently hold an official position in renowned universities and scientific research institutions or internationally renowned companies. Applicants who with outstanding performance can apply for an exception from the 36-months requirement.

#### 03

Applicants should currently be out of mainland China. Or for those applicants who are already in China, the date of their arrival in mainland China should be after 1 January 2023.

#### 04

Applicants should have worked full-time in China for at least 3 years if selected for the Talent Fund.

#### 05

Achieved scientific research or technical achievement recognized by peers and demonstrated potential to become a research leader or outstanding talent in their field.

### SALARY AND WELFARE

If selected, you will receive a salary from your employer and an award from the Government's Excellent Scientists Fund.

#### 01

The salary will be between 500 thousand and 2 million yuan RMB annually (basic) with additional housing fund, social security insurance and help with children's school enrollment, the exact salary will be determined on a case-by-case basis.

#### 02

The rewards will be between 500 thousand and 2 million yuan RMB annually.

## EMPLOYER

Companies, universities and research institutes in China.

## APPLICATION PROCEDURE

### Step 1

If you are interested in applying for the Global Excellent Scientists Fund 2024 in China, Please include "Application for Global Excellent Scientists Fund 2024 "in the subject line of the email and provide the following information in your email :

Date of Birth:

Nationality:

Date of receiving doctor's degree:

Doctorate-granting institution (University) :

Date of starting work:

Current country (region):

Current Employer:

Current Position (Title) :

Your introductory website at your institution (If any):

NOTE: Asking for submissions to personal email from Reply-To field above, not address tied to official domain.

In order to know your qualification better, if your position title does not belong to Lecturer, Associate Professor, or Professor, please also help us to equal them and send the following documents to **PERSONAL EMAIL @ qq.com**"

- 1、Your CV (including your personal statement) and your recently photo.
- 2、Scanned copy of Passport. (The Passport must be valid, clear and identifiable)
- 3、Scanned copies of Academic Certificates (Certificates of your Bachelor, Master/Engineer/Specialist and Doctor Degrees)
- 4、Scanned copy of the current Employment Certificates with relevant dates and valid seal or signature.(such as Employment Contract, Work Certification Letter.)
- 5、Proof of participating in projects as a project leader or a participant.(such as Project Contract, Official documents presented by the project party, Emails for project communication, Announcement on the official website and Your articles referring to project names.)
- 6、Proof of scientific research achievements.(such as papers, works, research technical reports, invitations to important academic conferences, authorized patents, and awards)

### Step 2

Once we receive your **Complete Documents**, we will recommend you to relevant companies or universities in China according to your research field and scientific research achievements. If the company (or university, institute) is willing to hire you, you will jointly apply for the talent fund together with the company (or university, institute)..

We will sign an exclusive service agreement with you and assist you in filling out and submitting your application documents

### Step 3

Outstanding candidates may be invited to China for the interview (if there is an interview) , and the final selection results will be announced in November 2024.

#### Note:

The Global Excellent Scientists Fund 2024 in China is expected to be officially launched in February-March 2024. Since it will be the Chinese Spring Festival at that time and it is very time-consuming to match the position and prepare the application form(Step 2), In order to have more time to prepare the application documents and increase the probability of successful selection,we start the application invitation in advance.

#### OTHER INSTRUCTIONS:

- 1、 If you are selected, you don't have to come to China immediately, you have up to a year to think and prepare.
- 2、 Regardless of whether you are successfully selected or not, we hope you can maintain long-term contact with us, as there may be some short term, part-time, and consulting opportunities are available for you.
- 3、 In addition to applying for a talent fund, if you are interested in setting up a company in China to sell your products or looking for sales agents, you can also send us the relevant documents, and we will help you explore the market and find customers in China.
