

March Food Drive is coming soon

In March the SOU Food Pantry will host the annual Governor's State Employees Food Drive.

Throughout March, campus buildings and departments will compete to contribute the most food and monetary donations, with the winning team earning a trophy and campus-wide recognition for their generosity and dedication.

The SOU Food Pantry remains committed to positively impacting students' lives by ensuring free access to nutritious food. With the support of partnering organizations such as Access, this annual food drive helps meet the needs of many students who rely on the pantry as a primary food source.

When donating to the food drive, consider non-perishable items like:

- Canned fruits and vegetables
- Canned Meat
- Pasta
- Juice
- Peanut Butter
- Shelf Stable Snacks

Community support is needed as much as university support. Throughout the years we have had many big donations from our community. There will be 2 barrels in the SU for community food donations

We encourage you to help spread the word about this event so we can achieve our donation goals and support as many students as possible. Thank you for your continued participation and support.
