

## **SOU's Summer Day Classes for Youth**

We invite the SOU community to learn about the summer day-camp opportunities offered through the Office of Outreach & Engagement.

### Summer Better Than Others

These engaging 2-3 hour daily courses cover a wide spectrum of interests. Students can learn rock climbing, hone their business sense in entrepreneurship, or get hands-on in ceramics class. These weekly courses offer many opportunities to choose from!

### Young Writers' Camp

Offered in partnership with the Oregon Writing Project at SOU, this program invites students ages 9-15 to sharpen their storytelling and composition skills during three-hour daily sessions. Each course runs for one week.

Our office remains committed to making high-quality summer enrichment accessible to families. SOU faculty and staff are eligible for a one-time 20% course discount on Summer Better Than Others registration. Employees should use the discount code 26Staff on the payment page. Tuition assistance is also available for low-income students participating in the Summer Better Than Others program.

Families and community members are encouraged to explore the full schedule of offerings at [youth.sou.edu/camps](http://youth.sou.edu/camps).

Please consider registering your child or sharing these opportunities with your friends and community.
