Call for Proposal

amazon alexa
Prospective individuals or teams are invited to submit a 500-word one-page proposal for the Amazon Alexa Day Event at Carnegie Mellon. Your submission should explain how your idea and product will integrate into the Amazon Alexa ecosystem.

The Alexa platform allows developers to create interesting, new, skills (apps) that have the potential to open whole new areas of enterprise. Amazon realizes that it can't do this on its own. And it knows that exciting new ideas will come from smart people new to the technology.

We are looking for individuals or small teams who have a great idea that uses the Alexa platform to deliver some new service or experience to users and that can develop into an exciting new startup.

Proposal Due Date: Dec 3rd, 2018
Go to https://www.cs.cmu.edu/alexa-day for proposal guideline and application

Save the date: Dec 6th, 2018 5:00pm
Location: Project Olympus, 4620 Henry Street, 3rd Floor

- You will have the opportunity to present your proposal.
- A committee will evaluate your proposal and will select those ideas that match the goals of the program.
- Finalists will receive a device and we will provide some level of ongoing support for your effort. All participants will be eligible to participate in the Carnegie Mellon Alexa Demo Day, in early March of 2019.

Winner's Reward
- ## Cash Prize for the top 3 realized ideas
- ## An invitation to the Amazon Alexa Fund incubator
- ## Interview opportunities for internships and full-time positions at Amazon
