

## Looking to spruce up your home?

Let us be the professionals involved in the art and technology of your landscaping and outdoor project planning. We can turn your vision into a reality!

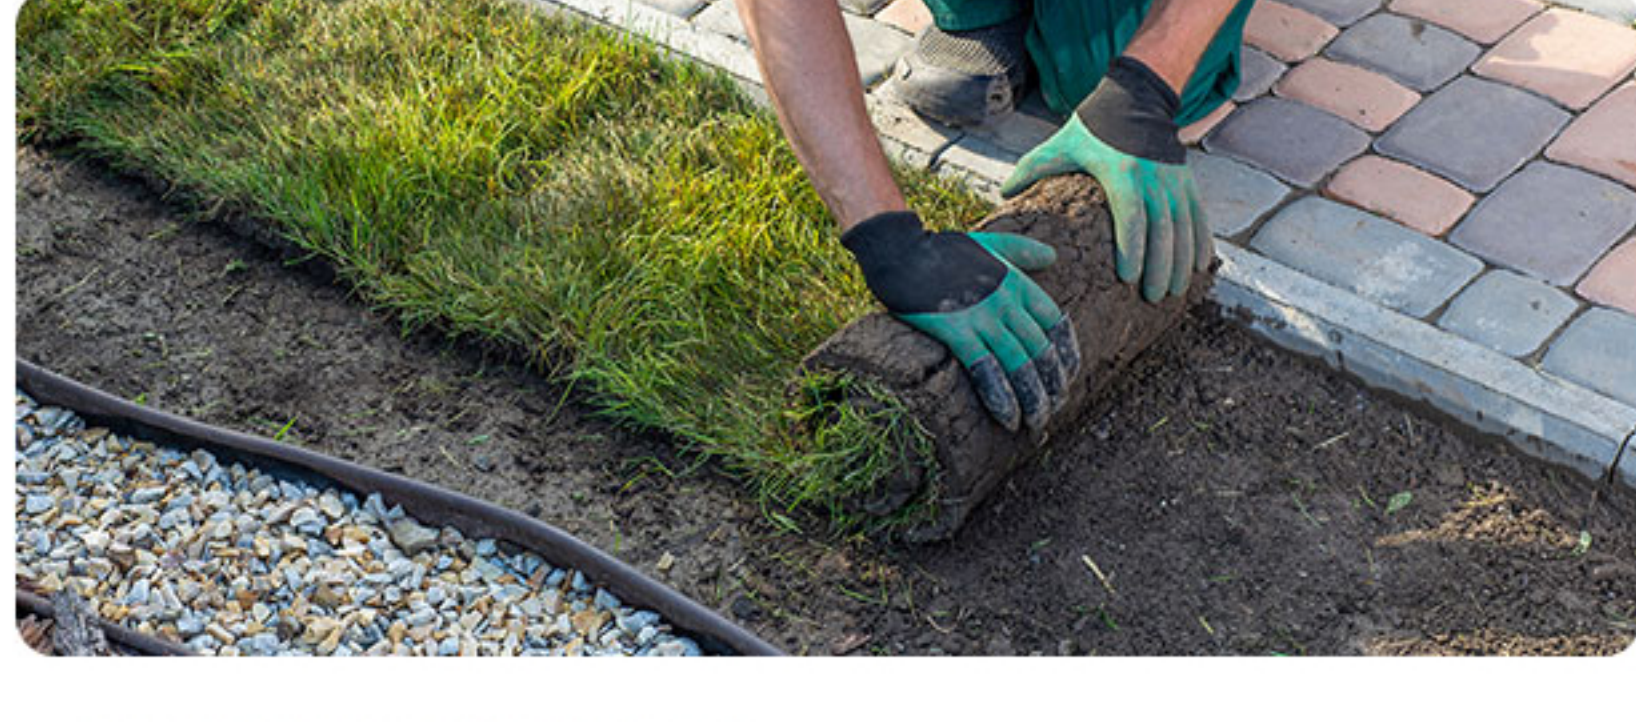

### Landscaping

We will design and install your new landscape or re-design your existing landscape to enhance and beautify your outdoor spaces. We'll start by carefully selecting the right plants for the conditions of your property. We then utilize trees, shrubs, ground cover, perennials, annual color, accent boulders and stones borders to create the perfect, unique landscape just for you. We'll also tune up your irrigation in order to complement your new landscape areas.

### Stone Borders, Walls and Natural Stone Patios

Enhance your landscape by letting us install a natural stone border or accent boulders. Adding a natural stone retaining wall is in the best interest of your landscape and will help with erosion issues. Interested in a new outdoor entertaining space? Let us design and install a new patio using either Flagstone, pavers, or concrete. We can also install Natural flagstone or concrete steps to enhance the functionality of your outdoor space.

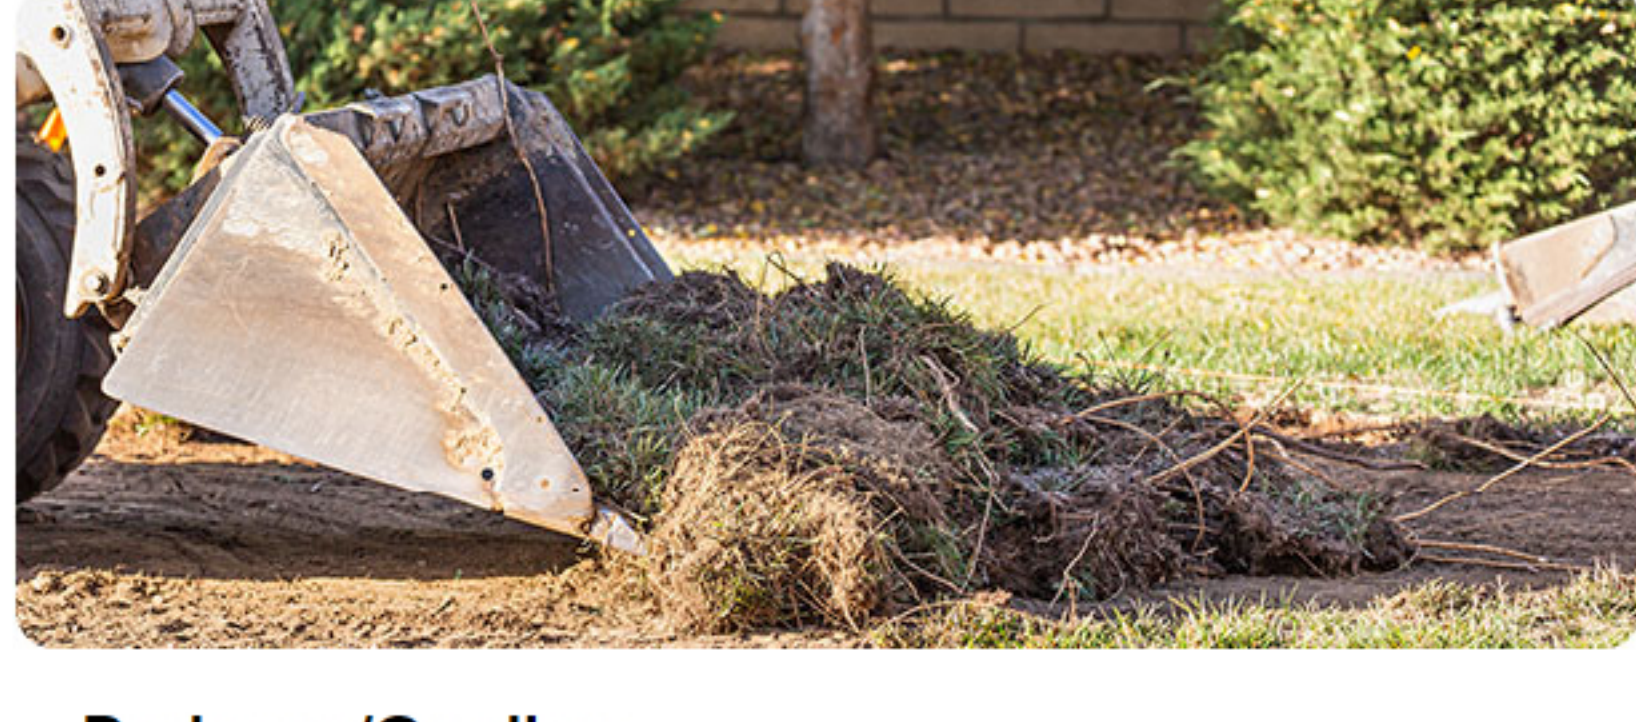

### Grass Sod / Turf Areas

We install new grass sod and remove your old yard for a new lawn. Have some problem areas? Let us give you some advice on ways to correct them. We install Raleigh St. Augustine, Bermuda or Zoysia sod and can help recommend what's right for your property and needs.

### Irrigation

We design and install irrigation systems in order to keep your landscape investment properly watered and healthy. Experiencing irrigation problems? An experienced irrigation tech can go thru your system and make suggestions or and can provide you an estimate to bring your existing system up to par.

### Drainage/Grading

We can assess your problem areas in order to design and install a drainage system to meet your needs. Drains or French drain options available. If your property needs grading adjustments or you need additional soil for proper drainage, let us give you an estimate.

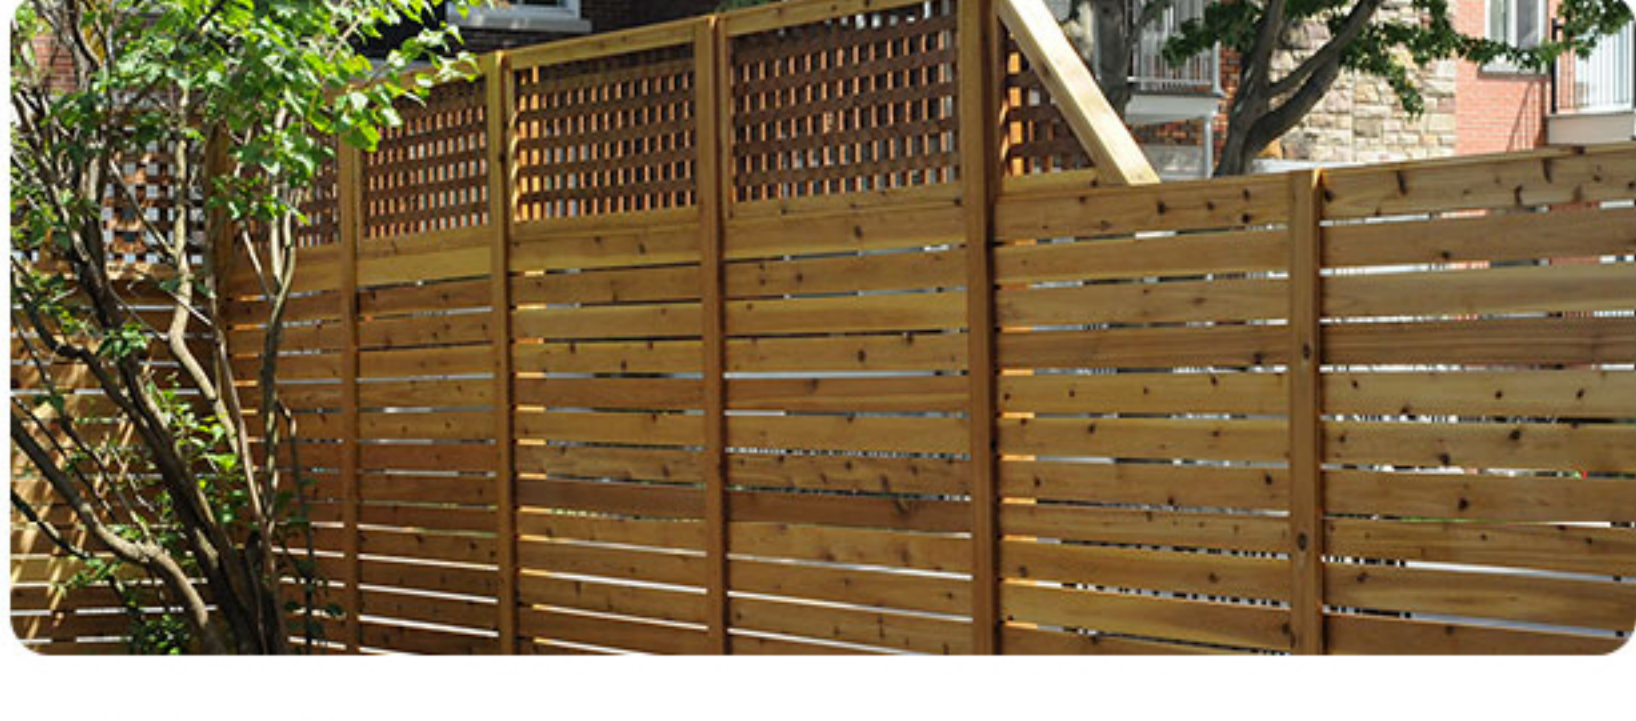

### Retaining Walls

Let us design and install a retaining wall, using natural stone, concrete blocks or railroad ties, to help prevent erosion and keep your landscape in place. Or beautify your property with terraced areas.

### Cedar Pergolas

We design and install a cedar pergola to add partial shade for your garden or outdoor space.

### Fencing

Let us help you with the design and installation of a new cedar privacy fence, beautify your property with terraced areas.
