In partnership with Blue Shield of California, NAMI California is hosting the Annual Youth Mental Health Conference focusing on youth mental health support, awareness, education, and advocacy. The conference offers speakers, panelists and workshops to facilitate and improve upon mental wellness practices for today's youth.

The conference extends perspective from NAMI California's fiercest advocates, including the California Department of Education, our team of diverse local [NAMI Affiliates](#), [NAMI CA Youth Advisory Committee](#), [NAMI Contra Costa TAY team](#) and more.
