

WCET is the leader in the practice, policy, and advocacy of digital learning in higher education. Our goal is to facilitate meaningful discussions and activities throughout the year, and we are developing resources and events to cover the topics of:

- generative text and artificial intelligence.
- digital learning definitions and providing clarity for learners.
- fostering inclusivity across institutions.
- state authorization and state reciprocity for online programs.
- reauthorization of the federal higher education act and other federal education policy issues and implications.
- promising practices in innovative online student support.
- and the wide range of topics our members bring to the conversation.

WCET is a *cooperative* of higher education institutions, organizations, and businesses. Our community thrives by exchanging ideas and discussing current and future challenges. The WCET community is enhanced by:

- **Broad and diverse membership.** Who else at your institution should be involved?
- **Active engagement in community discussions and events.** Participate in the online community and discussions, [MIX](#), and encourage your colleagues to sign up. Everyone within your organization has access to member benefits once they do!
- **Connected members.** Complete your profile in [MIX](#) and connect with other members in MIX to build your network.
