

The Tulane Center for Clinical Neurosciences welcomes

Dr. Christopher Green

Dr. Christopher Green is a board-certified neurologist specializing in critical care and vascular neurology. Born and raised in New Orleans, Louisiana, he attended the University of Notre Dame where he received a BA in psychology and pre-medical sciences. He remained in the midwest for early medical training, completing both medical school and residency at Rush University Medical Center in Chicago, Illinois. Following residency, he completed a fellowship in neurological critical care at the University of California, San Francisco. He will join Tulane University as an Assistant Professor in the Department of Neurosurgery and provide neurocritical care services at East Jefferson General Hospital and Tulane Medical Center. He is an avid and enthusiastic clinical educator and will work to further develop the neurocritical care fellowship program.
