

TENNESSEE STEAM! FESTIVAL

CELEBRATING SCIENCE, TECHNOLOGY, ENGINEERING, ART & MATH OCT 15-24, 2021

PARTNER WITH US!

Founded by the Discovery Center, the Tennessee STEAM Festival is a 10-day statewide celebration designed to build interest and excitement in STEAM (Science, Technology, Engineering, Art, and Mathematics).

The vision for this festival is to facilitate connections between experts and curious minds through hands-on experiences, promote a fast-growing and diversifying workforce, and boost the economy by highlighting industries and tourist destinations across the state.

WAYS TO GET INVOLVED

Become a Program Partner

Program Partners are organizations that help guide programming by creating and delivering engaging and fun STEAM events for the public either at their own venue or in another location. Program Partners will be recognized on the Festival website, booklet, and in conjunction with the events they produce.

Become a Sponsor

Sponsors can expect to engage with new audiences and build positive brand association, engage with the public in a variety of venues and formats, and increase their investment in the communities where their employees live, work, and learn.

Provide an Expert

Collaborate with an event that needs an expert in Science, Technology, Engineering, Art or Math. Sign up to be a professional (or send someone from your team) and Discovery Center will help connect you!

Volunteer

Join the volunteer team! Get together a group or fly solo as a volunteer during the Festival. Help event organizers at individual events. Join Discovery Center before the Festival to help manage delivery and other logistics.

WHY SUPPORT TSF?

ACCESS

The Festival broadens access to science learning opportunities for all, emphasizing inclusion and reducing barriers to equitable participation.

ENGAGE

The Festival offers opportunities for employees to mentor youth and engage with community members to share their passion for STEM careers.

REACH

Each year, the Festival reaches more than 35K people in person plus additional reach through social media and other channels.

CONNECT

The Festival collaborates with more than 160 science, cultural, and educational institutions to strengthen the STEAM ecosystem in Tennessee.
