

WHAT'S NOW, NEW AND NEXT AT SOUTHERN OREGON UNIVERSITY

SOU Voices Needed for Ashland's Future

The City of Ashland is creating a long-range Strategic Plan to guide community priorities, investments, and services over the next 5-10 years and hearing from the Southern Oregon University community is a critical part of that work.

SOU is a major pillar of the Ashland community. Students, faculty, and staff bring valuable perspectives on housing, transportation, economic opportunity, arts and culture, climate resilience, public spaces, safety, and overall community livability. As the City plans for the future, we want to ensure the needs and experiences of the SOU community are reflected in the roadmap ahead.

Whether you are a longtime resident, new to Ashland, commuting to campus, or simply invested in the future of this community, your voice matters.

We invite all SOU students, faculty, and staff to take the community survey and help shape the future of Ashland.
