This is a new and unique course unlike anything currently taught. It encompasses a comprehensive curriculum that stresses issues related to officer safety and survival. Considering the unacceptably high numbers of line of duty deaths and injuries, our number one goal is to develop and enhance officer tactical skills. These tactics will make officers more observant, understanding, and safety conscious.

➤ Traffic stops	➤ Pedestrian encounters	➤ Un- armed combative
➤ Attention and understanding	➤ Behavioral assessments	➤ Tactical firearms
➤ Knife defense	➤ Plain clothes and off duty	➤ Plus, much more!
