

Family Tech Talk

for parents and caregivers

Learn the risks your kids face online in an AI driven world

Join other parents and caregivers for this free educational webinar, presented by an Internet safety expert from Trend Micro's Internet Safety for Kids and Families Program.

This free webinar will cover the following topics:

- Online gaming and social media insights
- How to protect children from online scams and establish effective daily safety habits
- The latest scams targeting kids and teens and how AI is making these scams more convincing
- Essential online safety practices and what to do if you or a child falls victim to a scam
- AI and its impact on families: how AI is integrated into everyday apps and services, the benefits and risks, its impact on misinformation, and tips for safe interactions
- Managing screentime and bullying
- App settings for age-appropriate content
- Parental controls and tips on setting up your child's device

Available in multiple languages
