UGS 199: Orientation for Healthcare Professionals

This course is designed for students interested in healthcare professions. In this course, you will hear perspectives on health care topics from diverse health care professionals in our community. You will learn via guest lectures, brief videos, classroom activities, group discussions, and short assignments. In addition to its academic focus, UGS 199 seeks to enrich your college experience by teaching you the skills necessary to navigate the OHSU prerequisites and application process, as well as other graduate programs and career paths in health care. This is a hybrid course offered as a 2-credit or 1-credit that meets 50 minutes once a week in class, in addition to online discussions held throughout the week.

Mondays 12:30-1:20 pm

CRN 6744, 2-credits, full term

CRN 6786, 1-credit, 5 week 2
