

January 25, 2024

Dear USC Faculty, Staff and Students,

We write to invite you to participate in “**USC and Global Health: Advancing Global Health Partnerships and Health Equity Around the World**”, a free 3-hour symposium from 1:00-4:00pm to be held on March 7, 2024 at the [Westin Bonaventure Hotel, Los Angeles](#). We encourage you to register here <https://www.cugh2024.org/satellite-session-19>

We write not only to invite you to attend but *to encourage you to submit an abstract of your work in global health*. Every abstract received will be reviewed for acceptance as a poster at the symposium or for inclusion as a 10-minute oral presentation at one of the symposium sessions being planned. (Note: as a service, our office can print posters at a reduced rate, and we can provide poster boards and easels for presentations at the symposium).

This event promises to be a wonderful introduction to the diverse set of global health activities being pursued across many different USC Schools--- activities that can help us learn from one another, plan new partnerships, grow, and expand USC’s global footprint.

This event will be one of the satellite sessions associated with the [March 7-10 Annual Meeting of the Consortium of Universities in Global Health](#), a key conference that hosts thousands of participants from around the world. This satellite session is made possible thanks to sponsorship by the [USC Institute on Inequalities in Global Health](#), the [USC Department of Population and Public Health Sciences](#), the [Keck School of Medicine of USC](#), and other supporters. Note that participation in the satellite sessions is free (i.e., no registration or participation fee is required).

To submit an abstract of your work for consideration as a poster or oral presentation, please fill out the required information as noted in this survey form [by February 5, 2024](#). ([USC Satellite Session: CUGH 2024](#))

Thank you, we really look forward to seeing you there!!!

Howard Hu, M.D., M.P.H., Sc.D.
