

Cardiovascular Screening for Perinatal Patients

Wednesday, October 6, 2021

12 – 1 p.m.

Target Audience

Providers in obstetrics, internal medicine, family medicine, anesthesiology and cardiology. All care staff are welcome.

Learning Objectives

- Understand the significance of heart disease in the perinatal population.
- Identify signs, symptoms and risk factors of cardiovascular disease in perinatal population.
- Discuss when cardiovascular disease screening is required.
- Evaluate the cardiovascular disease screening algorithm, including: screening components, communications and management actions if screen is positive.

William M. Gilbert, M.D.
