

# Loyola Marymount University hosts a Blood Drive for Judah Winston Schwartz

Thursday, December 13

10 a.m - 3 p.m.

St. Robert's Auditorium

## Help an LMU Family in Need with Blood Donations and Card Making

The Schwartz family is seeking donations of blood for three-year-old Judah, who is currently in Intensive Care at UCLA's Ronald Reagan Medical Center. Jeff Schwartz, Judah's father, works in LMU's ITS department.

Devra, Judah's mother, worked for LMU's Department of Public Safety.

All blood types are welcome. Judah's blood type is O+; he can receive O+ and O- blood. Any blood that doesn't go directly to Judah will help the UCLA Blood & Platelet Center in this time of blood shortage. In addition to blood donations, members of the community will have the opportunity to make cards for the family.
