- From Google Play

ANNOTATE

Use pens and colors to draw, make annotations and capture ideas digitally onto your Jamboard.
Your work is automatically saved to the cloud.

Back to the top

1. Go to the toolbar on the left.
2. Tap the pen tool.
3. Select a pen.
4. Select a color.
5. Jam.

CREATE PERFECT TEXT, SHAPES, & IMAGES

Convert drawings into shapes. Assistive drawing tools use machine learning to enhance your content.

Back to the top

1. Go to the toolbar on the left.
2. Tap the pen tool.
3. Tap **Assistive drawing tools.**

Handwriting Recognition:

4. Tap the handwriting recognition tool. Aa
5. Write in print or cursive.

Shape Recognition:

4. Tap the shape recognition tool.
5. Draw shapes.

AutoDraw:

4. Tap the AutoDraw tool.
5. Draw picture.
6. Select a favorite image from the selection at the bottom.

BRAINSTORM WITH STICKY NOTES

Brainstorm ideas and organize information with different colored
sticky notes.

Back to the top

1. Go to the toolbar on the left.
2. Select the sticky note tool.
3. Choose sticky note color.
4. Type note.
5. Tap **Enter.**

ERASE ANNOTATIONS

Erase annotations and drawings with ease.

Back to the top

Determine finger erasing setting:

① Tap the menu icon. ≡

② Tap **Jamboard settings**.

③ Check **Finger erasing** setting.

Finger eraser on:

① Erase with a finger, palm, or Jamboard eraser.

Finger eraser off:

① Go to the toolbar on the left.

② Tap the eraser tool. ◆

③ Erase with a stylus, finger, palm, or Jamboard eraser.

MOVE AND RESIZE OBJECTS

Control objects on the board by moving or resizing them.

Back to the top

Finger eraser off:

① Go to the toolbar on the left.

② Tap the select tool. ↖

③ Tap on an object.

④ Drag it to a new location or pinch to resize.

Two-finger tap:

① Tap with two fingers to select objects.

② Drag it to a new location or pinch to resize.

INSERT IMAGES

Add images, web content, stickers, and pictures.

Back to the top

① Go to the toolbar on the left.

② Tap the insert image tool. ▣

Image search:

③ Tap **Image search**. ▣

④ Enter query.

⑤ Tap **Search**.

⑥ Drag an image onto the frame.

Web search:

③ Tap **Web search**.

④ Enter query.

⑤ Tap **Search**.

⑥ Tap **Crop**.

⑦ Optional: Resize crop zone.

⑧ Tap **Insert**.

Stickers:

③ Tap **Stickers**.

④ Drag a sticker onto the frame.
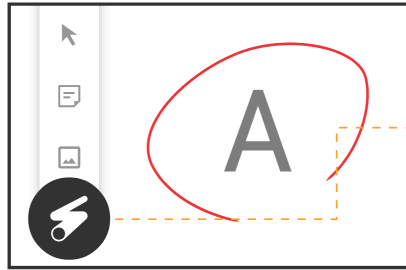

Take photos:

③ Tap the camera icon on the top left. ◉

④ Tap the take photo icon at the bottom. ◉

USE A LASER POINTER

Use the built-in laser pointer to draw attention to important information.

1. Go to the toolbar on the left.

2. Tap the laster pointer tool. ⚡

3. Use a stylus to direct the direct laser pointer.

IMPORT CONTENT

Upload files or add content from Google Drive using the Jamboard app.

1. Launch the Jamboard app on an Android or iOS device.

2. Open a Jam.

3. Go to the toolbar.

4. Tap **Google Drive** tool.

5. Select file.

DUPLICATE OBJECTS

Make copies of objects.

1. Tap and hold an object with two fingers until a blue border appears.

2. Tap the overflow icon. ⋮

3. Tap **Duplicate.**

DELETE OBJECTS

Get rid of unwanted images, stencils, text, and other objects.

1. Tap and hold an object with two fingers until a blue border appears.
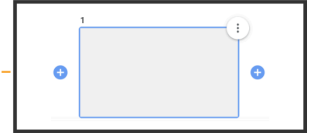

2. Tap the overflow icon. ⋮

3. Tap **Delete**.

MANAGE FRAMES

Add, reorder, duplicate, and delete frames.

1 Tap the frame bar at the top. ⬒

2 Tap the plus icon. +

Reorder:

2 Tap and hold a frame, then move it left or right.

Duplicate:

2 Tap the overflow icon. ⋮

3 Tap **Duplicate**.

COLLABORATE WITH OTHERS

Add collaborators by email.

Jamboard allows teams to collect, organize and utilize information. To collaborate with others, enter email addresses to add users to a Jam.

Back to the top

Save the Jam:

1. Tap the **Save** icon at the bottom. ♻

2. Enter your work email.

3. Tap **Save**.

Add collaborators:

4. Tap the menu icon. ☰

5. Tap **Share this Jam**.

6. Add collaborators by email.

7. Choose between: **Can edit** or **Can view** for each user.
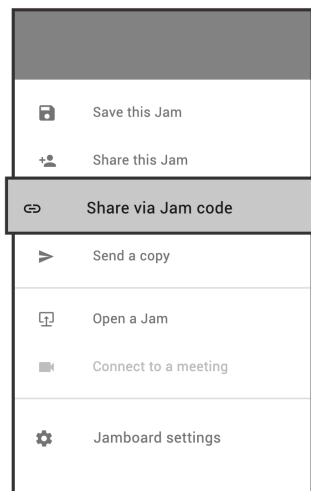

Add collaborators by Jam Code
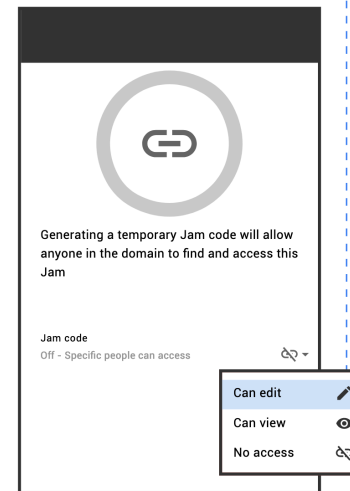

Invite others to join a Jam by sharing a Jam code.
Change permission settings to allow collaborators to edit the Jam.

Note: Collaborators not sharing the same domain will need to add users by email.

Back to the top

1. If unsaved, save the Jam.

2. Tap the menu icon. ☰

3. Tap **Share via Jam code.**

4. Choose between: **Can edit**, **Can view**, or **No access**.

5. Share Jam code with collaborators.

SAVE JAMS AS NON-EDITABLE FILES

Save a whole Jam as a PDF

- Go to the top right and click on the three dots to the left of the "Share" button
- Select "Download as PDF"
- Note that this will save all frames of the Jam

Save a frame of a Jam as an image

- Go to the top right and click on the three dots to the left of the "Share" button
- Select "Save frame as image"
- Note that this will only save one frame at a time
