USA MADE

STIMULUS PROGRAM

\$1 MILLION STIMULUS for USA MADE Instruments

Today, we are announcing a **NEW Stimulus Purchase Program** to continue partnering with local music communities and also celebrate USA manufacturing. The pandemic has been difficult for all of us and Conn-Selmer has decided to give an **additional \$1 million of stimulus aid** to schools interested in purchasing school-owned USA manufactured instruments.

This includes bass clarinets, tubas, french horns, marching brass, baritones, euphoniums, sousaphones, mallet instruments, timpani, and other made in America products typically purchased by schools and used across multiple ensembles.

We are excited to shine a light on the importance of American hand-made craftsmanship while also encouraging economic growth right here in the USA. From sourcing to producing, we pride ourselves on supporting jobs and manufacturing high-quality instruments for music education. Visit <https://bit.ly/USApurchase> to learn more and take advantage of this unique purchase program before it's gone!
